MEMORANDUM FOR

SECRETARY OF STATE
DIRECTOR, CIA

While there has been a good deal of conversation about devices for stopping the flow of students, etc. in and out of Cuba it does not seem to me that we have made much progress in developing our proposals. In part this may be due to lack of precise information as to their travel techniques. I understand President Lopez Mateos told Betancourt that the travel from Mexico did not amount to much.

I think the government in the next two weeks should develop precise proposals based on accurate information, which can be placed before the OAS, the Costa Rican conference and bilateral negotiations to eliminate this traffic.
